EDUCATION

University of California, Davis

B.S: Design & Computer Science Minor

May 2027

GPA: 3.0/4.00

Relevant Coursework: **UI/UX Design**, Interactive Media, **Graphic Design & Computer Technology**, Forms and Color, Design Drawing, **Artificial Intelligence**, Intro to 3D, Data Structures & Algorithms, C/C++, Discrete Math.

RELEVANT SKILLS, CERTIFICATION & CLUBS

Relevant Skills: **Figma**, **Adobe Illustrator**, **Photoshop** and **Lightroom**, Canvas, Professional Photography and Videography, Coding (C, C++, HTML, CSS, and JavaScript), Rhino 8

Coursera Certifications: **UI/UX Wireframing and Prototyping with Figma**, Intro to JavaScript, Intro to Front-End

Clubs: #Include, Industry Design Society of America (IDSA), National Society of Black Engineers(NSBE), ColorStack

HIGHLIGHTED EXPERIENCE & PROJECTS

#Include UC Davis | Design Cohort Member and Social Media/Photographer Manager **Spring 2026 - Present**

- Collaborate with 8 multidisciplinary design members to redesign the Juvenile Caduceus Clinic using **Figma**, and contributed in **research and UX deliverables** from **competitive analysis** to **mid-fidelity prototypes**
- Developed **user personas**, **user flow** and **high-fidelity UI** for the Home and About pages to improve clarity and accessibility
- Serve as the organization's social media visual manager, photographing 40+ members and editing with Adobe Lightroom

UC Davis Information Education Technology | Computer Room Consultant **Spring 2025 - Fall 2026**

- Assist **over 500+** students and faculty with technical issues in campus computer labs by providing rapid, on-demand support for **computer hardware** and **software issues**
- Communicate with faculty and students directly to understand technical issues and implement necessary solutions
- Troubleshoot 50+ technical challenges related to system log-ins, printing, and hardware

Group Project | UC Davis Undergrad Research Conference **Spring 2025 - Present**

- **Designed** Re/Fill, a retrofit mouthpiece for existing water fountains that adds a bottle-filling spout while preserving traditional drinking functionality, improving public water accessibility and sustainability
- Conducted **research** on water accessibility and social equity in the Sacramento region, developing a cost-effective design that leverages existing filtered fountain infrastructure rather than replacing systems
- Collaborated on prototyping and iteration of the product and presented Re/Fill at the 26th UC Davis Research Conference (2025), refining the design through multiple development stages

Full-Stack Developer | Campusconnect(<https://project-campusconnect.vercel.app/>) **Spring 2025 - Fall 2026**

- Developed a service-sharing ecosystem for students using **React** and **Tailwind CSS**, **demonstrating high-level frontend development skills required for modern** UI platforms.
- Engineered core features including user authentication (Supabase), provider service listings, and complex appointment booking logic.
- Built and validated filtering/display logic using mock data to ensure a seamless user experience and robust state management before database integration.

ColorStack | Web Development Project Manager **Spring 2025 - Fall 2026**

- Led a team of 5 developers over 3 academic quarters to build web-based projects for our club, coordinating weekly work sessions and project timelines to ensure consistent progress
- Directed structured project meetings by creating agendas, defining sprint goals, and tracking deliverables, improving team organization and accountability
- Fostered an inclusive design and development environment by encouraging team members to contribute ideas and lead solution strategies, increasing team participation and ownership of project outcomes
