

CHINOMSO AUGUSTINE

Davis CA · 323-974-8500 · chinomso.aa@gmail.com · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

Product Designer and Front-End Developer with 2 years of experience creating user-centered designs and responsive React applications. Always open to new ideas. Seeking internship or full-time position.

Education

University of California, Davis

B.A: Design & Computer Science Minor

May 2027

GPA: 3.1/4.00

Relevant Coursework

Google UX Design Professional Certificate | UI/UX Wireframing and Prototyping with Figma Certificate | UI/UX Design: Principle and Practices | Graphic Design & Computer Technology | Forms & Color | Intro to AI | Intro to 3D Modeling

Skills

Design Tools: Figma | Adobe Illustrator | Photoshop | Lightroom

UX Skills: Wireframing | Persona | User Journey | HMW | User Flow | Crazy 8 | Accessibility | Information Architecture

Coding: React | JavaScript | HTML/CSS | C & C++

Clubs & Organizations

#Include | Industry Design Society of America | National Society of Black Engineers | ColorStack | Thrive Scholar

Experience & Projects

Design Cohort & Photographer Manager

#Include Davis Design Club

Jan 2026 - Present

- Collaborated with 8 multidisciplinary designers to redesign the Juvenile Caduceus Clinic, delivering research, competitive audit, user persona, user flow, low-high fidelity prototypes
- Developed the home page from start to finish, improving clarity and accessibility
- Managed social-media visuals, photographed and edited images of 40+ members using Adobe Lightroom

Temple Coffee Shop Parklet

Industrial Design Group Project

Mar 2025 - Jun 2026

- Designed an accessible parklet with a three-person team for Temple Coffee in Downtown Davis, incorporating seating and shade to improve the user experience.
- Developed individual concept sketches, collaborated on iterative 3D modeling and design refinement in Rhino.
- Translated final concept into physical cardboard prototypes through laser cutting and glueing pieces together.

Web Development Project Manager

ColorStack

Jan 2025 - Dec 2026

- Led a team of 5 developers over a year to build web-based projects for our club, coordinating weekly work sessions to boost project progress.
- Directed structured project meetings by creating agendas, defining sprint goals, and tracking deliverables, improving team organization and accountability
- Fostered an inclusive design and development environment by encouraging team members to contribute ideas and lead solution strategies, increasing team participation and ownership of project outcomes

UC Davis Undergrad Research Conference

Group Project

Sept 2024 - Apr 2026

- Designed a retrofit mouthpiece for existing water fountains that adds a bottle-filling spout while preserving traditional drinking functionality, improving public water accessibility and sustainability
- Conducted water accessibility research in the Sacramento region, developing a cost-effective design that leverages existing filtered fountain infrastructure rather than replacing systems
- Collaborated on prototyping and iterations and presented product at the 26th UC Davis Research Conference

Full-Stack Developer

Personal Project(<https://project-campusconnect.vercel.app/>)

Jun 2024 - Sep 2024

- Developed a service-sharing ecosystem for students using React and Tailwind CSS, demonstrating high-level frontend development skills required for modern UI platforms.
- Engineered features including user authentication, provider service listings, and appointment booking logic.
- Built and validated filtering/display logic using mock data to ensure a seamless user experience and robust state management before database integration.
