Education

University of California, Davis May 2027
B.A. in Design, Minor in Computer Science **GPA: 3.2/4.00**

Experience & Projects

Temple Coffee Shop Parklet

Industrial Design Group Project ***Mar 2026 - Jun 2026***

- Designed an accessible parklet with a three-person team for Temple Coffee in Downtown Davis, incorporating seating and shade to improve user experience and increase customer counts by 40%.
- Developed individual concept sketches, collaborated on iterative 3D modeling and design refinement in Rhino.
- Translated final concept into physical cardboard prototypes through laser cutting and glueing pieces together.

Web Development Intern

Neuron Edge AI Startup (https://neuronedgeai.com/) ***Summer 2026***

- Led the UI/UX design and programmed a responsive React/Vite website, transforming an unfinished WordPress concept and six-page brief into a fully functional website.
- Conducted competitive analysis to understand and guide website direction.
- Collaborated with the CEO and startup team from concept through launch, incorporating feedback and delivering a live website that increased company visits by 100%.

Design Cohort

Design Club (#Include) ***Jan 2026 - Present***

- Collaborated with 8 multidisciplinary designers to redesign Juvenile Caduceus Clinic, a student run clinic.
- Delivered research, competitive audit, user persona, user flow, and low-high fidelity prototypes
- Developed the home page in Figma from start to finish, improving clarity and accessibility

Web Development Project Manager

STEM Club (ColorStack) ***Jan 2025 - Dec 2025***

- Led a team of 5 developers over a year to build web-based projects for our club, coordinating weekly work sessions to boost project progress.
- Directed structured project meetings by creating agendas, defining sprint goals, and tracking deliverables, improving team organization and accountability
- Fostered an inclusive design and development environment by encouraging team members to contribute ideas and lead solution strategies, increasing team participation and ownership of project outcomes

UC Davis Undergrad Research Conference

Research Conference ***Sept 2024 - Apr 2026***

- Designed a physical retrofit mouthpiece for water fountains in Sacramento, adding a bottle-filling spout while preserving standard drinking functionality.
- Researched social equity and infrastructure to develop a cost-effective mouthpiece prototype, integrating physical form with user-centric functionality.
- Iterated design through multiple stages of prototyping and presented findings to 300+ attendees at the 26th UC Davis Research Conference to influence future sustainability infrastructure

RELEVANT COURSES & CERTIFICATIONS

Certificate: Google UX Design Professional Certificate, UI/UX Wireframing and Prototyping with Figma Certificate
Courses: UI/UX Design: Principle and Practices**,** Human Centered Design, Graphic Design & Computer Technology, Intro to AI

SKILLS

UX Skills: Wireframing, Prototyping, User Personas, User Journey Mapping, User Flow, Information Architecture, Accessibility
Design Tools: Figma, Adobe Illustrator, Photoshop, Lightroom
Coding: React, JavaScript, HTML, CSS, Tailwind CSS, C, C++
